

At UNIQ, we recruit and retain the best people in the industry. Our engineers and consultants are selected on the basis of their sense of initiative, innovation and team spirit. We believe that our success is a combined result of personal progress and achievement of each member of our team. We build long-term relationships with our employees by ensuring them with on-going professional development and constant proceeding toward their goals. We provide a competitive remuneration, flexible career path in addition to stability, stimulation, security and a great working environment where talented and industrious people can realize their full potential.

UNIQ is always looking for the best and brightest talents to join our team. We treasure individuals who always seek to continually improve their knowledge and skills. If you are a College or University graduate in Business or Technology with a high academic standing and a good command of English together with a good sense of initiative, dedication, entrepreneurial, integrity and team spirit, don't hesitate to contact us. To apply for a position, please send us your resume via the address admin@uniqglobal.com
